## 0.1 Bookdown Pdf Document

This is a simple example of a Bookdown document that can be rendered to a Pdf document format. You can include text, code chunks, and other elements as needed.

## 0.2 Basic formatting

You can use Markdown syntax to format your text. For example, you can create **bold text**, *italic text*, and `inline code`.

You can also create lists: - Item 1 - Item 2 - Subitem 2.1 - Subitem 2.2

### 0.2.1 Cross-referencing

You can reference sections, figures, and tables. For example, see Figure 1 for an example figure.

```
plot(cars)
```

If you want to reference a table, you can do so like this: Table 1.

You can also reference a Figure that is not embedded inside a chunk, like this: Figure 2.

Table 1: An example table

	mpg	cyl	disp	hp	drat	wt	qsec	vs	am	gear	carb
Mazda RX4	21.0	6	160	110	3.90	2.620	16.46	0	1	4	4
Mazda RX4 Wag	21.0	6	160	110	3.90	2.875	17.02	0	1	4	4
Datsun 710	22.8	4	108	93	3.85	2.320	18.61	1	1	4	1
Hornet 4 Drive	21.4	6	258	110	3.08	3.215	19.44	1	0	3	1
Hornet Sportabout	18.7	8	360	175	3.15	3.440	17.02	0	0	3	2
Valiant	18.1	6	225	105	2.76	3.460	20.22	1	0	3	1

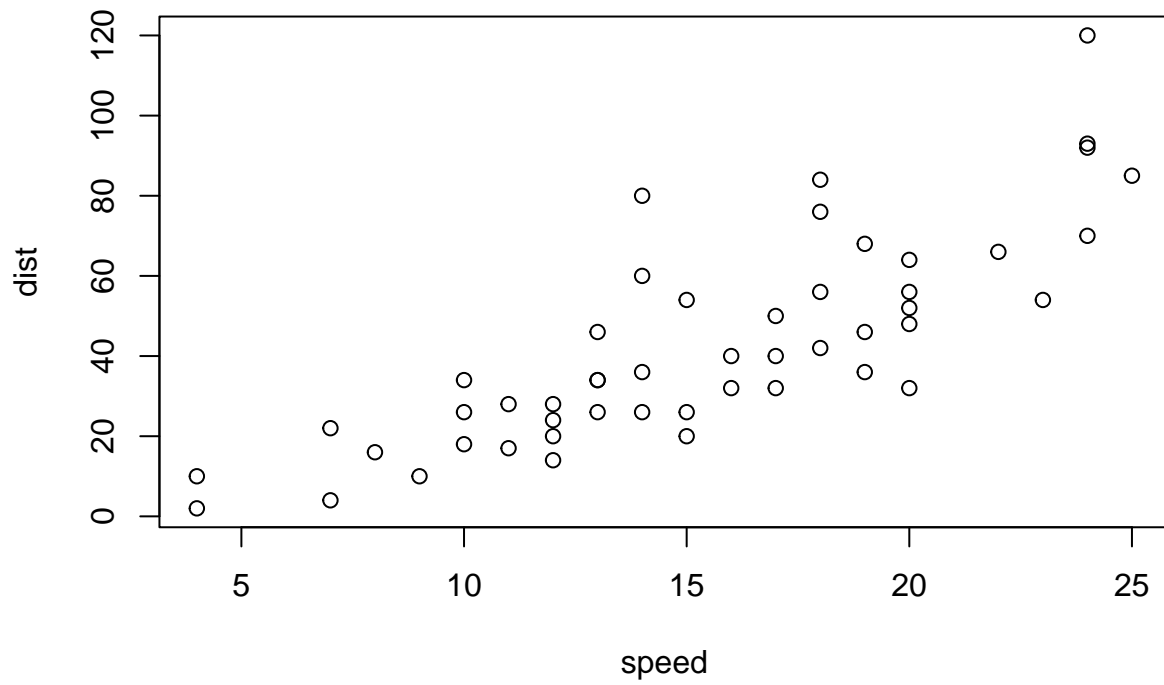

Figure 1: An example figure

Figure 2: Grumpy cat

Or you can refer to a rmd table like this: Table 2.

Table 2: Six spatial entities categories grouped under the umbrella terms RURAL and URBAN, and respective sub-categories.

Category	Description	Subcategory (if any)
RURAL	<p><b>‘rural entities’</b>: spatial terms relating to – or characteristic of – the countryside, in particular related to human settlements or infrastructures, as opposed to those of the city (for example <i>Wanderweg</i>: footpath, <i>Feld</i>: field, <i>Hütte</i>: hut, shack);</p> <p><b>‘natural entities’</b>: terms describing spatial elements as found in nature, not involving anything made or done by people (for example <i>Baum</i>: tree, <i>Bach</i>: brook, <i>Felsen</i>: rock);</p> <p><b>‘rural geolocations (geoloc_rur)’</b>: proper names of villages and small towns – with less than 5000 inhabitants – in Switzerland, Austria, Germany, France and Italy (for example <i>Zumdorf</i>, <i>Enggwil</i>, <i>Huttwil</i>)</p> <p><b>‘natural geolocations (geoloc_nat)’</b>: proper names of natural locations such as mountains, rivers, valley, lakes (for example <i>Matterhorn</i>, <i>Mont Blanc</i>, <i>Donau</i>),</p>	<p>village</p> <p>forest, mountain, stream/lake , valley</p>

### 0.3 References

And finally, you can include references in your document. For example, Woolf (1927) for a sample citation, or (Woolf 1927, 1925) for multiple citations. You can also use the @ syntax to refer to specific pages, like Woolf (1927, 123). At the end of the document, you can include a bibliography section that will automatically format your references.

### Bibliography

Woolf, Virginia. 1925. *Mrs Dalloway*. 1996th ed. Ware: Wordsworth Classics.  
 ———. 1927. *To the Lighthouse*. 1994th ed. Ware: Wordsworth Classics.
